New England Roofing Company,

INCORPORATED IN 1851

WARREN'S IMPROVED

Fire and Water Proof Composition Roofs,

Office——71 Liberty Square, Boston.

THIS Company would respectfully solicit the attention of Builders, Architects, Manufacturers and the Public, to this much approved system of Roofing which has been very generally adopted in the cities of Buffalo, Cincinnati, Chicago, and St. Louis, and within the past year in Boston and vicinity, where it has given entire satisfaction. It is rapidly superseding the use of all other kinds of Roofing, and is confidently offered to the Public, as a mode of Roofing unobjectionable in every important particular.

The materials employed are none of them subject to corrosion by rust, like the metals, nor will they expand and contract with the changes of temperature, like tin and iron, nor shrink in dry weather, and swell in damp, like shingles, and other wood coverings.

It combines in a greater degree than any other Fire Proof Roofing in use, the valuable requisites of cheapness, durability, and security against both Fire and Water.

These Roofs require an inclination of not more than one inch to the foot, leaving it a good condition for a promenade for drying purposes, and is of particular advantage to adjoining buildings in the event of Fire.

They are afforded at a much less price than any other Fire Proof Roof. The amount of material saved, and which would be used (by the old method) in raising the walls, and framing a steep Roof, will further reduce the cost of the building.

All other advantages gained, in the securing of room in the upper story, of no wood seams and joints to decay and be consumed, as those in the lower part of the building. The expense of a three story building, with this improvement, but being greater than that of a building of two stories with the pitched roof. There is a further saving in the cost of gutters.

These roofs are not affected by the jar of machinery—like those of Tin or Slate.

The Composition is so prepared that it is not affected by the extremes of heat or cold.

In case of injury from any cause whatever, can be repaired easily, or quickly renewed.

For further information obtained by applying at the office of the Company, as above.

BOUNTY LAND.

BOUNTY LANDS.

IMPORTANT NOTICE TO

SOLDIERS, SEAMEN,

AND THEIR

Widows and Minor Children.

A BILL has passed both Houses of Congress, granting Bounty Lands to the following classes of persons, viz:

One hundred and sixty acres to all who have SERVED FOURTEEN DAYS IN ANY WAR of the United States, provided they have not received Land.

Ninety-two acres to all who have served fourteen days and have received 40 acres.

Eighty acres to all who have served and have received 80 acres.

And if the soldier has deceased without obtaining 160 acres, the same privilege is given to his Widow or Minor Children.

Seamen in the Revolution—in the War of 1812—and in all the Indian Wars, is provided for by said Act.

And all who served the period required in the Militia of the State of Maine in the early part of the Aroostook War, are entitled to the

AROOSTOOK WAR,

Are entitled to the benefit. Also the Militia called out by Gov. Anthony, who served the same period of time as required by the Act passed for by the United States, and their Widows, and Minor Children.

The subscriber is prepared to receive and prosecute all claims arising under said Act, with promptness and despatch, and upon as reasonable terms as other Agents.

He has in my Military Rolls the Copies in his possession, and especially "any list" ones of the Militia drafted for the Aroostook service in 1839.

As a pioneer seeks to remunerate himself by his charges, he withdraws to refer upon his long and well known experience and success in those of a similar nature.

It will if preferred, Purchase the Land Warrants at fair rates.

Applications can be made to him at his Office, or if requested by letter, he will send to claimants Declarations, with suitable directions, which may be executed without the parties leaving their homes.

To secure the receipt of a Warrant early, apply early—

GEO. B. MOODY,

Counsellor at Law, and Agent for Pensioners and Bounty Land Claimants

Office in Dow's Block,

Corner of Hammond and Central Sts., 3d Story.

Bangor, March 7, 1855 dawtf

BOUNTY LAND!

B. H. MACE,

Counsellor and Attorney at Law,

WOULD give notice that he is prepared to prosecute all claims to BOUNTY LAND and procurement of Land Warrants granting 160 acres to all who have served FOURTEEN DAYS in any war since 1775.

Those who have received 40 or 80 acres, are now entitled to enough more to make up the 160. Those who have received 160 acres, are not entitled to any more. The benefit of this Act extends to the widow and minor children of the soldier, but to no other heirs. Those who have been engaged in BATTLE are entitled to 160 acres, without regard to the period of their service.

Persons having claims under this or any other Act, will have them promptly attended to by calling on, or writing to, A. L. RICHARDSON & CO., 1 Railroad Exchange, Court Square, Postage who pay cash for warrants.

N. B.—We have faithful and experienced agents in Washington, and we make no charge if we can, unless we obtain the land.

Admirable Invention!

JUST RECEIVED!

ANOTHER LARGE LOT OF

PATENT SELF HEATING SMOOTHING IRONS

MANY important improvements have been made since the beginning of the present century, relieving and facilitating the labor of men by machinery and other modern improvements, but few have been nearly neglected until the introduction of the *Patent Self Heating Smoothing Iron*, which will relieve them, in a very great degree, from the excessive and fatiguing labor of Ironing, besides being a great saving of time and expense. This Iron combines economy, convenience, saving of labor, and despatch—one cent's worth of dry charcoal supplies fuel for a whole day's constant ironing. Hard wood coal from the stove will answer the same purpose. It can be used in any room or in the open air. Holders and Chairs' Irons are constructed upon the same principle, and possess equal superiority.

For sale wholesale and retail, by the subscriber who is the only Agent for Penobscot County

NEWSPAPER ARCHIVE®

Whig and Courier.

Wheeler & Lyede, Proprietors.

THURSDAY, MAY 17, 1855.

***For Railroad, Steamboat, Stage, Express and Public House Advertisements, see Fourth Page*

For Bounty Land notices see First Page.

For "City of Bangor" advertisements see first page.

The election should be treated as a military. Gov. Reeder should order a new election, and the President should send sufficient military force to protect the ballot-box from these marauders. At any rate Gov. Reeder should be sustained in vindicating the rights of the citizens under his charge at all hazards. Can the south expect the north to consent to the admission of a State into the Union with a constitution tolerating slavery imposed upon its citizens by armed other States? Is the principle of popular sovereignty, incorporated into the Kansas bill to have effect only in the assumptive that its citizens are in favor of slavery? If this the entertainment to which the Union men of the north have been invited?—*Belfast Journal.*

We think it is, very nearly. It is very much like the entertainment of which the people were warned by the opponents of the Nebraska bill. While papers like the Belfast Journal, which excused and defended the outrage, insisted upon it that a recognition of the principle of popular sovereignty alone was the foundation and intention of the bill, the entire south and papers and members of Congress fully exposed its true character, and warned the people of the north, that it was clearly and only a scheme to give those blood tyrants into the grasp of the slave power. The supporters of Douglas and of the administration must, moreover, have known that this *could* be the inevitable effect of the measure—that the slaveholders, their institution being legal and by the bill, would grasp the territory at all hazards.

Now that the deed is done, however, and prediction has become history, as to its effects, the Belfast Journal and other papers which helped to perpetrate the mischief, are loath to say anything what they might perhaps have prevented. They now mourn a great deal of noise about the outrages committed by the slaveholders in securing the territory which was opened to them by the Nebraska-Kansas bill. But is anything more than is to be? The Journal asks, as the South expect the north to consent to the admission of a State into the Union with a constitution tolerating slavery imposed upon its citizens by armed force of other States? The South certainly *ought* not to expect any such thing, and the north to the great Republican movement of last year, which threw out of Congress many bunkers and northern doughfaces who could not otherwise have been elected, these is a coward, at least that the south will mount without its boot, if it does expect it. Has the Journal prepared to back up its brave words? Will last year's and the other papers of the opposition urge this State, stand up resolutely to the end, and *oppose the admission of Kansas as a slave State?* We think not—for the reason that they *cannot* do so and still maintain their standing as "national old party papers.

PROPOSED SALE OF THE PUBLIC WORKS OF PENNSYLVANIA.—It appears that the original cost of constructing the public works of Pennsylvania was $35,024,267. During the twenty-three years that they have been in operation the working expenditures have amounted to $15,499,857, and the interest on the loans to $12,156,790, making the whole amount of cost to September, 1853, $27,656,176. The revenue in the same period was $28,342,029, showing a balance against the improvements of $685,856. So that the State has been paying five and six per cent. per annum on at least a million to build the works, while the works have yielded the State less than one per cent. The Legislature has passed a bill to sell the main line of these works, fixing the minimum price thereof at $7,500,000, and if purchased by the Pennsylvania Railroad Company, at $8,000,000, and repealing the tonnage tax.

The following changes have been made in the Patent Office: Wm. Cheney Langdon of Kentucky, now Assistant Examiner, is to be Chief Examiner, at a salary of $2500 per annum. Wm. Reed of Delaware, Amos J. Parks of Rhode Island, Thomas Dodge of New Hampshire, and Isaac Hill of Michigan, are to be Assistant Examiners, each at a salary of $1800 per annum.

SMALL DEFALCATION AT WASHINGTON.—It is not generally known that a law was passed at the last session of Congress prohibiting the issuing or circulation in the District of Columbia of bank notes of a less denomination than five dollars—under a penalty of ten dollars for each offence. Yellow boys and yellow girls are still legal currency—of whatever denomination.

EXTRA WHITE INK.—We are indebted to Messrs. H. Hughes & Co. for samples of Black Record Steel Pen Writing Ink, manufactured by Taddeus Davids & Co. of New York; also, Davis's Brilliant Carolina Ink, and Davids' Extra Adhesive Mucilage, for office use. We find the Ink to be one of the best articles we have ever used, and the Mucilage is exceedingly convenient about the desk.

We are indebted to Mr. Geo. W Reynolds of this city, who was one of the passengers in the ill-fated steamship Golden Age, for a supply of California Journals, New York and Boston papers.

Messrs. Edwards & Co. and Hodgman, Carr & Co., will also accept acknowledgments for renewed favors, by their Expressee.

Considerable rain has fallen here, at intervals, within the past two days. On Tuesday night it rained pretty smartly for several hours, and on Wednesday afternoon and night, there was a gentler and more copious supply. The trees and grass show its good effects.

Col. Henry Little of this city, has a few scions of the famous Beauty of Kennebec, which for size and beauty is not excelled. A most prime table apple for the market.

Nathaniel Mc Cloney, Esq a well known citizen of Bethel, died on the 5th inst. of pulmonary consumption. His age was 67.

Soon after the steamer Boston arrived at her wharf, Saturday, an Irish lad of seven or eight years old, fell into the dock between the boat and the pier, and was saved from drowning only by the most active exertions of the by-standers.

MUSIC.—Our readers will notice, in another column, the card of Mr. J. T. Clarke, late leader of Clarke's Brass Band, who still continues to furnish music of all kinds, to Brass and String Bands, and to give instruction to pupils.

About 150 gallons of liquor was taken by the Marshal yesterday, at the wharf of the steamer Boston. It was marked to various persons, and some of it claimed as purchased for private use.

KNOW-NOTHING RUMORS.—The following speculations in regard to the movements of the Know-Nothings are made by one of the Washington letter writers:

"A re-construction of the Know-Nothing order will take place soon after the Virginia election. The pressure from the inside will be first in exterior influences have been able to accomplish, the complete abandonment of secrecy as an element of faith and organization. Oaths will be abolished, and a declaration of principles will be made by some sort of authority. The wonderful efficiency of the new order has it abilities been to part attended chiefly through the privacy of its councils, and the obstacle of disputation among themselves on minor points of political contention, such as temperance, tariff, internal improvements, and slavery. Containing the members with the great impetus of Americanism against foreigners, and Protestantism against the Romish Cat solicy, on which they are all agreed, they have gone on for a year and a half in a triumphal progress, unchecked by enough defeat. But local lodges and State councils have begun to obtrude upon the President's nomination, which must be made as a fair contest, and some other questions on which positions must be taken. An open National convention has been demanded by the Know-Nothing State Council of New York and Pennsylvania (a minority in each), favors to occupy, having seceded), and it is believed that this will be conceded by the Grand Council, at that the Convention will be summoned to meet at Philadelphia in November next.'

LATEST FROM CALIFORNIA AND THE ISTHMUS.—*New Orleans, May 14.*—The steamship Prometheus has arrived at this port from San Juan, Nicaragua bringing California dates to the 24th ultimo.

The steamship Northern Light left San Juan for New York on the night of the 8th instant, with 350 passengers and $300,000 in treasure on freight.

Another revolution broke out in Nicaragua, on the 6th occasioned by the accession to power of General Manuse.

Twenty copper mines had been discovered at Costa Rica.

There is little news of interest from California.

The United States Land Commissioners had confirmed Webber claim to eleven square leagues of land, which the city of Stockton had located.

Two more heavy failures occurred in San Francisco—viz, Jane Duncal for $80,000, and George B Tyler & Jr., for $100,000.

Sales are the finger, had escaped at a vessel bound to Canada.

Business continued very dull, and prices were much depressed.

There has been no arrivals of vessels from Atlantic ports during the week preceding the departure of the steamer from San Francisco.

The California papers teem with the usual details of crime, and numerous suicides are reported.

CHICAGO, May 14

The Baptist Home Mission Convention met here this morning. Dr Cone was elected President. The attendance was very large; there were delegates from thirteen States. The report of the Executive Committee was adopted and the Committee continued until the Society meets from Nassau street to the Bible House. Resolutions were passed unanimous y, approving the course of the Committee, and minority of the Home Mission Board, and strongly condemning the majority, and directing the Convention to organize a new Society, and pledging the Convention to the Committee appointed last week in Brooklyn.

A great abolitionist meeting was held this afternoon. Doctor Armitage and al present pledged themselves to harmony and co-operation.

AN EPISODE IN QUEENSLAND.—One of the editors of the Times Herald, one night last week, fell into the "seeing conduit," having grossly mistaken the weigh-lock for the gate-walk. He as allowed a couple of quarts of the delectable water with which was intended for a different purpose, and then his attendance for help, and in getting his assistant of the affair, he frankly declared he lately, that had assistance arrived a few moments later, he would have been spared the trouble of enduring this present item, and one city would have been deprived of a valuable member, and his private opinion is, that although he may is an excellent public conceit, the species of practical "comet survey" in which he indulged, is rather risky, as well as undomestic.

ARCHBISHOP HUGHES.—*New York, May 16* Archbishop Hughes publishes his promised statement in reply to the charges of Mr Brooks, this morning. He takes for his motto "Light," the mother of truth, will not permit deception to envelop his reign," and then in a quiet manner, enters into a full statement on all over three columns long, he proceeds to answer the whole question, and to state, as he says the filling of letters sent upon Mr Brooks, against whom he proves, by the aid of two lawyers, whose assistance he enlisted many tenchnical points in regard to the conveyance of property.

A SMALL SEA-GOING CRAFT.—The Cape of Good Hope papers mention the arrival at Simon's Bay, of the lugger Mystery, of 16 tons, from Penzance, England, in 60 days. She had proceeded thence to Table Bay, where she took in stores and a man, and departed for Mossel Bay. When leaving Simon's Bay, she had out with two masts, having a tack, and hit the vessel in the bay opposite their engine in honor of the advent to that little bark. She sailed for Melbourne on the 24th of January.

ROBBERY AND ARREST.—Geo. Blake, moving from Bangor to Boston, was robbed in the latter city, on Tuesday, of several trunks, containing property to the amount of $2416, which had been purloined from the freight house of the steamer Governor. By the aid of the police, he succeeded in arresting a man named John Gunn, who was identified as having disposed of a portion to an auctioneer.—*State of Maine.*

A young handsome and well educated lady in Maine, who some ten years since married a Chippewa Indian, causing a deal of talk at the time, now resides with her aboriginal husband in Lawrence, Kansas Territory, where they live in good style and have the comforts of civilization around them. Her husband graduated from Bowdoin College, New York, whether before or after marriage we do not know.—*Exchange.*

THE DISASTER TO THE GOLDEN AGE. By full accounts of the accident to the steamer Golden Age, we learn that the disaster occurred about 211 miles above Panama, in the passage between the Islands of Quibo and Quicara, in a part of the passage which has always been supposed to be free from dangers. Capt. Allen McLane, formerly commander of the Golden Age, was on board at the time of the accident, and has furnished the following particulars. The many friends of Capt. Watkins in this vicinity, will read with pleasure his commendation of the coolness and courage of that officer.—*Boston Journal.*

"A little after midnight of the 28th of April, we passed the Island of Montuosos, the sea perfectly smooth, and a good moon, fourteen de Capt. Watkins steered direct for a passage between the Islands of Quibb and Quicara, inclining the shore of the latter in order to keep clear of dangers (sunken rocks) laying towards the shore on the other named island. At about 2 A.M. of the 29th the ship going over the ground at the rate of 11 miles per hour, pointed for the passage apparently clear of the reef off Quicara, as laid down on the Captain's charts, she struck full and fast.—The captain was on deck himself (speaking with Mr. Augustus D.), as indeed he had been all night, and doing all that a skill ul and prudent navigator could, to guide his ship in safety The sea was calm, an I smooth, without any appearance of indication of hidden danger.

Instantly upon striking, an immense volume of water rushed into her forward—the pumps were at put in immediate requisition, boats lowered away, &c., &c. In five minutes the Engineer reported the water rising w th great rapidity, utterly beyond all effort of the pumps. At this time we had 8 feet forward and seventeen feet aft and amidships. The Captain's first intention of landing his passengers instantly, was frustrated by the report of the rise of the water in the hold and her settling aft, from the depth of water standing and aft, which circumstance rendered it impracticable to drive full length on the reef At the instant she rolled heavily, and her bow fell off the reef or rock. Having a good headway steam, Watkins determined to run on a little further to like small reef, which he knew lay a short distance ahead, and upon striking, she rolled wildly, coming, to low much, and striking a second time

He backed her off keeping her stem clear, and again struck, and ran along the reef, delay ing his purpose of beaching, are so long as he had steam to force her ahead, until he should find a spot offering the best chance of saving his passengers. Of course time flew, and this passed another five minutes—we come to the fourteen of the port boiler, and above those of the starboard one—all the fires of the latter out So still had steam in the boilers—the engineers and firemen up to their necks in water in the fire room A few hundred yards ahead we could make on a small reef, beyond the point of the island, high and apparently with sound beach. The steamer still went on under command and after helm, the water still gaining above the pumps, failing &c. Another five minutes, and the balance of the fires were out. We had about a hundred yards to go to our cove, which we were now nearly abreast of.

The Captain put his helm hard-a-port and headed right on the beach The water along the side continued deep, and the engine turned over very slowly. On we went, sounding ten fathoms, six fathoms, and finally she stopped, her bow within thirty feet of the shore, but so slow was her movement, that no one felt the stop We had 17 feet all around, the boilers only had steam enough left to shake two or three revolutions After our first feeling o gratitude to Almighty God for our deliverance from a sudden and fearful danger, from the Arct c's fate—we paid tribute of admiration to Watkins for his consumable coolness, presence of mind and great e hcency, quick, though his and prompt actions?

The reef, or rock, on which she struck, could not in my opinion, have had more than a foot less water on it, than the steamer drew, so that a little less draught of water, or a full tide would have taken her off or It appears to me to be a sunken rock for reef, lying off the main reef, which shakes just from N W point of Quicara —So far as can be ascertained the only injury s forward, the scarf of stem or keel being the spot—five wood-ends here are shattered storem Watkins has had large pumps constructed, being of course, unable to work any of those attached to the engine, by steam

He got a sail around the bows but as yet has been unable to get it under her, from 14 taking in the sand, Last night he tried his full power pumps, those he had con tructed, together with that worked by the Donkey engine, for which there is a separate boiler, the result shows, that the rise of water with the tide was one half of the rise when no pumps were employed. Hence by discharging double the quantity of water he was able to do, he can free her entirely, float her and secure the leak under her bottom properly—all this he proposes to do, and the construction of a coffer dam, which will seclude the leak to plug up and copper over the hole. This the chances are good for his saving the ship. He certainly will leave no stone unturned

I cannot omit to mention the perfect behavior of the passengers in all respects. The discipline quietly but effectively maintained from the first moment of peril, with the prompt measures taken, inspired general confidence No apparent alarm, no rush, no noise—all stood ready to obey orders, and moved and acted as directed. The women were the truest of the true, and set an example worthy to be remembered and to follow.—The decided and unhesitating course pursued by Watkins, backed by Mr Augustus, to save the passengers from a chance of peril at any cost of their own or the Company's interest, has won for both the kindest feelings from all hands. Passengers leave the ship most agreeably, feeling how truly those under whose charge they placed themselves have done their whole duty.

Truly your friend "

The Golden Age was built at New York, three years ago, at a cost of $350,000 and was insured to about that amount.

LORD RAGLAN.—A correspondent of the London Times, writing with the date of January 22, says concerns very deliberately as follows, concerning a prominent officer in Her Majesty's service:

Lord Raglan shows neither ideas nor genius—may, not even energy. He seems to have a the past rather than the present, and thinks o supply every want by the cherished Peninsular recollections, imagining that what was excellent in 1809 in Spain and Portugal must needs be the best in the Crimea in 1854 and 1855. But with all his recollections, he seems to forget that imitating a few peculiarities of the old Duke makes a great General just as little as taking snuff imparts the genius of a Napoleon. He tries to copy, and is, therefore, as usual, a caricature of the original Because the Duke did not care about exposing himself when it was necessary to do so, he exposes his self often when it is not wanted; may, he exposes himself for the purpose of exposing himself, instead of choosing his position where he could best see to look the action. I saw him myself amidst the battle of Inkermann, occupying during a great part of the day, a position where the cocked hat soon attracted an unenviable notice from the enemy's guns, and where, at the same time, nobody could find him. The Duke was cold and harsh, his soldiers Lord Raglan caricatures him, and his coldness assumes the character of indifference. During the late storms the troops were for several days short of provisions, without firewood, their tents blown down, and they themselves starving, shivering and overworked. What would it have been for him to have put on a water-proof, to ride about the camp and cheer up the men; but no one ever sees him, and I am bound to say that nineteen-twentieths of the army don't know him.—Those around him say the English soldier is much improved as; their general ought to be to them as superior both in humanity to the *petites misères* of the soldier, as he is supposed to be always doing his duty. I am inclined to doubt this; and, even if it be true, it can only be so when the soldier has thorough confidence in his general, and when he feels that there a really superior mind watching over his interests, and that everything has been done to avert the calamity which afflicts him. This, however, is far from being the case in the present instance, and the soldiers feel this as if by instinct; besides this he has likewise occasion o make comparisons.

CINCINNATI, May 14. The Provincial Council of the Catholic church commences its session at the Cathedral in this city yesterday.—There was a very large attendance and ceremonies were extremely imposing.

The American Party and the Cause of Freedom.

From an excellent article under this title, in the last Kennebec Journal, we make the following extracts:

There are those, who, we have reason to suppose belong to the American organization, who seem to believe that the American party can safely overlook the question of slavery aggression. But no one who is well acquainted with the meaning of history and the ruling aims of political parties, and understands the present hopes and impulses of the American people, can long sincerely hold such an opinion. No political party can exist and bear any practical fruit for good, that is not vitalized and directed by the real forces in society. Platforms and tactics are as nothing unless an existing power works its way through them to logical and specific results. That power in a true republic comes from the masses, the homes, the honest convictions of the people. No pulling of wires, or shuffling of cards can enable a party worth v to be called American, successfully to disregard the facts and principles on which a large majority of the people have positive opinions, and have formed the most determined resolutions. How, then, can he American party ignore a question pregnant of more results than any other known in American history? Shall we be told that existing powers have decided to have nothing to do with a every, or anti-slavery? Since a decision is fairly and fraud. It will prove a decision to every one that is weak enough to honestly entertain it. Those who put the former Lather Reynolds, in Sudbury, where she has resided the past two years.—*Maine Farmer*

SUICIDE. The dead body of a young woman named Mary Castello, was found on the east side of the river on Sunday morning last, by Capt. E. K. Patterson. She had been employed as a domestic in the family of Mr Charles Gordon. Verdict, voluntary drowning.—*Belfast Free Press*

THE NEW HAVEN RAILROAD—IMPORTANT DECISION.—*New York, May 15* —In the case of the New Haven Railroad against Cornelius Vanderbilt and several others, Judge Cowles, in the Supreme Court yesterday, rendered a long decision, stating that to all who held the stock without a knowledge of its fraudulent issue, the Companies were liable.

OPINION OF THE PRESS.

From the "Seminal and Reformer," Worcester, Mass.

Wistar's Balsam of Wild Cherry.

The beneficial effects of this remedial composition are astonishing to the world, and make it one of the most popular medicines ever known. Coughs, Colds, and Consumptive cases, its curative powers are established by numerous testimonials of the highest character. In the first stages of the disease termed "Catarrh or Consumption," originating from neglected colds, it has been used with astonishing success, and hundreds acknowledge they owe the restoration of their health to the invaluable medicine. Many of the first physicians prescribe it in their practice.

VERY IMPORTANT INFORMATION

To the Ladies—In the most fashionable Physicians in New York for the cure of [illegible] Having witnessed the excellent effects of Dr. Swayne's Compound Extract of Wild Cherry in affections of the throat, bronchial tubes and lungs, I can therefore recommend it to those afflicted with coughs, colds, &c. as a safe and reliable remedy. Apprehending no danger, I have prescribed and effected wonderful cures by using it in the following cases, viz:—Hoarseness, Croup, Influenza, Whooping Cough, Asthma, Bronchitis, Pleurisy, Pain in the Side, Liver Complaint, Spitting of Blood, Pain in the Breast, Weakness of the Lungs, Night Sweats, Consumption, &c. No doubt thousands of cases might be relieved and many cured, by using this valuable remedy.

You are at liberty to use this in any way you may think proper. Respectfully, yours, &c.

C. JOHNS, M. D.,

No. 509 Houston street, New York.

Prof. B Catlin writes us as follows:—

Gentlemen—I have recently had occasion to test your Cherry Syrup and Hygeian Vapor in a case of chronic sore throat that had defied me to yield to other forms of treatment, and the result has satisfied me, that we possess in the composition of your preparations as near an approximation, to a specific remedy [illegible] I wish, for the sake of the afflicted, that it might be brought within the reach of all.

Rev. Doctor Beecher writes:—

New York, Nov. 15, 1854

Gentlemen—I thank heaven for Dr. Swayne's Hygeian remedies in diseases of the throat and lungs having had more opportunity of testing efficacy, am convinced that they are most powerful yet moderate, both the Syrup and the Vapor, be completely at the chest.

The Hygeian can be had in Bangor by SAMUEL PERKINS No 1 Kenduskeag Bridge. dlm dec29

Use Howe's

HYGEIAN HOARHOUND & LIVERWORT

COUGH CANDY

Never can the promises of Medicine be more clearly proved upon the sick than with this pleasant remedy. A few pounds given during a short period of time, to the Howe's Hygeian Hoarhound & Liverwort Candy, will very speedily try it.

Prepared in 1, 2 and 5 pound packages.

For sale by Sargent & Co., S. F. Perkins Warren I. Adams, Jr. Deering, Wm. Moore, Ambrose Warren, Jr. & A. Boyd, James Robinson Thomas G. Pond Cartwright & Norton, J. S. Wallis, S. F. Perkins, C. P. Sargent & Co. Jan26

THE USE OF

BROWN'S BRONCHIAL TROCHES

—OR—

COUGH LOZENGES

Has proved to be the Best Remedy ever known for the relief of Bronchitis, Hoarseness, Hoarseness of the Voice, Coughs, Colds, &c. Hundreds have used them in almost every part of the country with perfect success.

PATENTS.

American and Foreign Office

—AGENCY FOR BUSINESS—
WITH U. S. PATENT OFFICE,
WASHINGTON.

No 76 State Street, opposite Milk St.,
BOSTON.

IMPORTANT INFORMATION to Inventors—The subscriber, late Assistant of the U. S. Patent Office, under the act of 1837, is now prepared to procure applications for patents, and Patents, wherever to those inventors who may employ him. He will make arrangements whereby an application can be prepared and conducted by him, (WHILE IN THIS COUNTRY) and the invention secured by Patent, with the least possible delay. Inventors may rest assured that their business will be promptly attended to, and the most reasonable terms charged. Those who may favor him with their patronage, may rely upon having their cases prepared with the greatest care and attention, and prosecuted with the utmost diligence and dispatch. Models, Drawings, Specifications, Assignments, and all papers and documents for the prosecution of Patents, will be executed on the most reasonable terms, and with the utmost dispatch. Inventors who may desire to know whether their inventions are patentable, can have a search made and opinion given, by forwarding a description of the invention, with a fee of $5. Information as to the value of inventions, and the best manner of introducing them to the notice of manufacturers, cheerfully given. Communications strictly confidential. Address, as above.

Inventors who have already procured Patents, and wish to sell their rights, will find it greatly to their advantage to have their Patents introduced to the notice of manufacturers and capitalists, by advertising them in the Patent Office Reporter, a weekly publication, containing the claims of all the Patents issued from the Office, and which has a large circulation among the class of persons whose attention it is desirable to attract. Subscription price $2 per annum. Advertisements inserted at the rate of one dollar per square for the first insertion, and 25 cents for each subsequent insertion. Patents for sale will be entered in a book kept for the purpose, free of charge.

Reference is kindly permitted to the following gentlemen, who have recently obtained Patents through the subscriber:

ISAAC C. TALLMAN, Judge Circuit Court, Boston, Mass.
JOSEPH BLISS, Solicitor of Patents, Washington, D. C.
G. C. SAVAGE, Photographic Artist, Washington, D. C.
JAS. M. OLMSTEAD, Attorney at Law, Washington, D. C.
C. MAYNADIER, Attorney at Law, Washington, D. C.
HON. JOHN CAYLER, Boston, Mass.
MARLBORO. HART, Boston, Mass.
PHILIP REWING, Boston, Mass.
ASA JONES, Boston, Mass.
WM. R. MOORE, Boston, Mass.
P. W. BURR, Boston, Mass.
HUGH CAYNER, Boston, Mass.
JOHN L. JONES, Boston, Mass.
THOMAS GRAY, Boston, Mass.
DAVID DUNHAM, Boston, Mass.
HARI WILSON, Boston, Mass.

Having made several agreements with Solicitors of the Patent Office, to procure Patents for their inventions, and having been appointed Solicitor of Patents for several foreign governments, I feel confident that I can procure Patents in the United States, and in all foreign countries, on more favorable terms than any other agent. I am very respectfully, your obedient servant,

THOMAS EWBANK,
Commissioner of Patents

Boston, Sept. 1, 1855 3mos 35 eowly

DR. A. H. SCHENCK'S PULMONIC SYRUP,
For the Cure of Consumption.

THIS preparation of this eminent physician, which is now introduced to the notice of the public, is the result of long experience and extensive practice in the treatment of Consumption. Before the operation of which it is recommended, all other remedies have proved entirely inadequate. It is now patiently well—by cough and night sweat will disappear, and we feel confident in declaring that no case of Consumption, however deep seated, can resist the use of the Pulmonic Syrup, if taken according to directions.

Dr. Schenck's Pulmonic Syrup, which appears to have been an hereditary disease with his father's family. Of his brothers and sisters, residents of Pennsylvania, he was the last of his family, he with only half a form, as one after another were consigned to the silent tomb by this fell destroyer.

VOLUNTARY TESTIMONY.

We, the undersigned, residents of Pennsylvania, do hereby certify that we are well acquainted with Dr. J. H. Schenck. He was afflicted by disease, which, in part, I have terminated in Pulmonary Consumption; after the operation of which he was reduced to such a state as to be unable to walk for a long time, and to all appearance would not recover. He is now perfectly well—by cough and night sweat will, and we feel confident in declaring that it will be the last time any death have resulted from the use of the Pulmonic Syrup.
